Date	Type	Note	Doctor	PetNurse	CSC	Hospital
05/31/2010 3:55 pm	Plan		Ely, J.	Dunhill, C.	Binkley, K.	0339 Jensen Beach
		Patient: Mistique (Canine) Client: Candace Mildner Prescription Filled On: 5/31/2010 Prescription #: 0339-10062831 Rx: MRX Hills Canine VD (i/d) Manufacturer: Instructions: Feed as Directed. Providing Doctor: John Ely Quantity: 1.00 Expiration Date: 5/30/2012 Number of Refills: Unlimited				
05/31/2010 3:24 pm	Subjective		Ely, J.	Dunhill, C.	Binkley, K.	0339 Jensen Beach
		patient presents for possible urinary infection. O got pet saturday night from a rescue and are fostering pet. O noticed that pet will drink water but has only urinated 3x since saturday night. O's also states that pet has not had an appetite and fed her raw hamburger meat, steak, cheese, some dry dog food can dog food. Pet has not had a bowel movement since it has arrived. No vomiting/diarrhea noted.				
	Objective		Ely, J.	Dunhill, C.	Binkley, K.	0339 Jensen Beach
		Bar, crt<2, mm;moist and pink, eent;wnl, c/s; generalized rough hair coat and multiple spots of alopecia present, (Previous suspected diagnosis of mange is present on paper work). Mild excoriations on dorsal tail base. Uro-White/tacky discharge present from vagina. Heart/lungs auscult normally. Abd: soft, doughy. LN: wnl. Cytology of vagina discharge- +++ parabasal cells, +++ neutrophils with cocci/rods present intra- and extra-cellularly				
	Assessment		Ely, J.	Dunhill, C.	Binkley, K.	0339 Jensen Beach
		Dermatitis- r/o demodectic mange, sarcoptic mange Suspect Pyometra(Did discuss this with owner), r/o vaginitis, cystitis				
	Plan(Notes)		Ely, J.	Dunhill, C.	Binkley, K.	0339 Jensen Beach
		physical exam, Recommend CBC, chem panel, urinalysis + abdominal radiographs to confirm diagnosis of pyometra. Gave estimate for above diagnostics, pyometra ovariohysterectomy and antibiotics/pain meds (approx \$1000). Minimally, recommend start pet on Clavamox and ciprofloxacin. Owner declines all but script for cipro, MRX Hill's VD for now. Will contact shelter for referral to lower-cost veterinarian ASAP. Wrote rx for ciprofloxacin 250mg #28- Give 1 PO BID (1 refill) 1 Prognosis: guarded 2 Client Education: Discussed seriousness of pyometra- needs treatment as soon as possible. High mortality rate without treatment, 5-8% mortality during and post-surgery. Discussed rationale for diagnostics. 3 Recheck: 1 day (here or another hospital) 4 Follow-Up Therapy: bloodwork, xray, potential spay surgery ***** Cassandra Dunhill Was presenting nurse				

Therapy presented & declined by the client this visit/hospitalization:

None
