Instructions

Please monitor your pet's incision daily. Some redness and swelling may be normal, but if there is excessive swelling or any discharge, we need to recheck the incision.
No baths or swimming for 10 days.

For your pet's safety, he/she was intubated for the anesthetic. You may notice some coughing for the next couple of days. This is normal due to a small amount of irritation to the throat from the endotracheal tube. If the coughing seems excessive please contact our office.

Your pet had surgery today. We need to remove the external sutures in 10 days. Please call for an appointment.

Please offer your pet small amounts of food and water tonight. Normal diet can be resumed tomorrow.

Your pet may resume normal activity tomorrow.

MAKE SURE TO KEEP HIS ELIZABETHAN COLLAR ON HIM UNTIL WE REMOVE THE SUTURES
HIS EYELIDS WILL APPEAR SWOLLEN AND DROOPY FOR UP TO A WEEK..
