VET-EXAM - T12-096372	11/07/2012	FCL	\$ 50.00

Treatment Details
 PE: WNL except overweight, moderate dental tartar and wearing of canine teeth, tearing from eyes, few small areas of brown corneal pigmentation on both eyes, waxy ears, small scabbed sore on left cheek, and some thickening of skin around hocks. Pet does not appear to be squinting at this time but may have some mild entropion causing tearing/epiphora and corneal pigmentation. Needs known medical form for tearing from eyes/corneal pigmentation and possible entropion, sore on left cheek and thickening skin around hocks. Recommend consultation with private veterinarian within 1 week of adoption to discuss weight management, dental care, and eyes. Dr. Leavengood
